DETAILED ACTION

Allowable Subject Matter

1. Claims 1,5-13,26,28,29,33 are allowed over the prior art of record.

2. The following is an examiner's statement of reasons for allowance:

As per the independent claims, the claim limitations pertaining to the particular flagging an confidence parameters are not explicitly taught by the prior art of record. As an example of the prior art of record, Bartosik et al (6,725,194) teaches a form of adjusting a speech coefficient indicator (col. 6, lines 7-16 and col. 9, lines 1-62), but does not explicitly teach the flagging and confidence parameter limitations of the claims; the systems and methods of Bartosik derive a numerical value (the correspondence indicator CI) that is used for the adjustment of a speech coefficient indicator SKI during operation in a training mode - this correspondence indicator (CI) is not used to flag an audio response as claimed. Furthermore, it would not have been obvious to one of ordinary skill in the art of speech recognition systems to modify the teachings of the prior art of record to obtain the recited claim limitations of the independent claims as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
